1 Geoscientific Machine Learning

Welcome to the book **Geoscientific Machine Learning**. This book will teach you basics of Julia programming, machine learning, and how to mix geoscience domain knowledge with machine learning methods.

Free living book

This is a living book and free for everyone! Contents will be dynamically updated at regular intervals between major released versions.

This book is under construction

Contents are not ready for readers. If you want me to include something specific while I work on this book part-time Please open an issue and I'll try to add it.
